

KWS TREBIANO

Pollen

PLUS

Versatile

KWS TREBIANO offers farmers the most versatile agronomics and end-use markets in one hybrid rye variety. It provides market leading standability, excellent ergot protection from PollenPlus™ technology and high grain yields. KWS TREBIANO is taller without sacrificing standability. This makes KWS TREBIANO a strong dual-purpose option. This hybrid provides farmers versatility for the food, feed, fuel, and forage markets.

Agronomy & Quality Data

	KWS TREBIANO	Average of Hybrid Rye Check Varieties	Average of Traditional Rye Check Varieties
Yield	100%	99%	78%
