

CDC Landmark VB

Canada Western Red Spring

Semi-dwarf
Esasy to harvest
Semi-solid stem

Inspirational Genetic Potential – Unforgettable Path to Results

CDC Landmark VB continues to be the leading midge tolerant semi-dwarf CWRS with unsurpassed standability and sprout tolerance. This short variety, carrying the SM1 gene, is suited for any farmer looking for top-end yield potential and peace of mind.

- Wheat midge tolerant
- Very good standability
- Good sprouting resistance

Maturity: -2 days to Carberry

Height: +2cm to Carberry

Lodging resistance: Verry Good (1.5)

FHB resistance: I

Stem rust resistance: R

Leaf rust resistance: MS

Stripe rust resistance: MR

Bunt: MS

Strengths

CDC Landmark VB is higher yielding than the checks with short straw, low lodging scores, midge resistance (sm1 carrier) and is stripe rust resistant.

CDC Landmark VB has partially solid stems.
